NOTES TO FINANCIAL STATEMENTS For the Fiscal Year Ended September 30, 2019

NOTE I--COMPENSATED ABSENCES (Continued)

Sick Leave

<u>County</u>--All county employees earn 1 day of sick leave per month after their probationary periods. After the completion of the probationary period, all employees may carry sick leave forward to their next anniversary date of employment up to 70 sick leave days. After the accumulation of 70 days on the employee's anniversary date, the employee shall be paid at the rate of 65% of their regular daily rate on all sick days accumulated in excess of 70 days. Employees who resign, are laid off, retire, or die will be pad half of their accumulated leave.

<u>Road Commission</u>--Employees hired post-1987 earn four hours sick leave per month, and pre-1987 employees earn eight hours a month. All employees are paid annually for accumulated leave in excess of 360 hours. Upon termination, the accumulated sick leave is paid in full. Sick leave for 2019 amounted to \$142,630.

NOTE J--EMPLOYEE PENSION PLAN--PRIMARY GOVERNMENT

General Information about the Pension Plan

Plan Description. The County participates in the Municipal Employees Retirement System (MERS) of Michigan. MERS is an agent multiple-employer, statewide public employee pension plan established by the Michigan Legislature under Public Act 135 of 1945 and administered by a nine member Retirement Board. MERS issues a publicly available financial report that includes financial statements and required supplementary information. This report may be obtained accessing the MERS website at www.mersofmich.com or in writing to MERS at 1134 Municipal Way, Lansing, Michigan 48917.

Summary of Significant Accounting Policies

Pensions. For purposes of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, and pension expense, information about the fiduciary net position of the Municipal Employees Retirement System (MERS) of Michigan and additions to/deductions from MERS' fiduciary net position have been determined on the same basis as they are reported by MERS. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

Benefits Provided--Defined Benefit. The County's defined benefit pension plan provides certain retirement, disability, and death benefits to plan members and beneficiaries. PA 427 of 1984, as amended, established and amends the benefit provisions of the participants in MERS. Benefit terms, within the guidelines established by MERS, are established and amended by the County Board of Commissioners, usually after negotiation of terms with applicable unions. Any changes to the plan, including cost of living adjustments, would have to be approved by the County Board of Commissioners in this manner also.

Employees covered by benefit terms. At the December 31, 2018 measurement date, the following employees were covered by the benefit terms:

Inactive employees or beneficiaries currently receiving benefits	93
Inactive employees entitled to but not yet receiving benefits	36
Active employees	153
Total employees covered by MERS Plan	282

Contributions. Const 1963, art 9, § 24 requires that financial benefits arising on account of employee service rendered in each year be funded during that year. The employer is required to contribute amounts at least equal to the actuarially determined rate, as established by the MERS Retirement Board. The actuarially determined rate is the estimated amount necessary to finance the costs of benefits earned by plan members during the year, with an additional amount to finance the unfunded accrued liability. The employer may establish contribution rates to be paid by its covered employees. As of September 30, 2018, the contribution rates are as follows.

NOTES TO FINANCIAL STATEMENTS For the Fiscal Year Ended September 30, 2019

Police Non-Supervisory Other	4.5%	\$	162,912		

^{*}Employer contributions are based on percentages for open divisions and annual payments for closed divisions.

Net Pension Liability

The net pension liability reported as of September 30, 2019, was determined using a measure of the total pension liability and the pension net position as of December 31, 2018. The December 31, 2018, total pension liability was determined by an actuarial valuation performed as of that date.

Actuarial Assumptions. The total pension liability in the December 31, 2018 actuarial valuation was determined using the following actuarial assumptions, applied to all periods included in the measurement:

Inflation	2.50%
Salary Increases	3.75% in the long-term
Investment Rate of Return	7.75%, net of investment and administrative
	expense including inflation

Although no specific price inflation assumptions are needed for the valuation, the 2.5% long-term wage inflation assumption would be consistent with the price inflation of 3%-4%.

Mortality rates were based on 50 percent male - 50 percent female blend of the RP- 2014 Healthy Annuitant Mortality Tables, with rates multiplied by 105 percent, RP-2014 Employee Mortality Tables, and RP-2014 Juvenile Mortality Tables. For disabled plan members, rates were based on a blend of the 50 percent male - 50 percent RP-2014 Disabled Retiree Mortality Tables.

The actuarial assumptions used in the December 31, 2018 valuation were based on the results of the most recent actuarial experience study of 2011-2015.

NOTES TO FINANCIAL STATEMENTS For the Fiscal Year Ended September 30, 2019

NOTE J--EMPLOYEE PENSION PLAN--PRIMARY GOVERNMENT (Continued)

The long-term expected rate of return on pension plan investments was determined using a model method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. The target allocation and best estimates of arithmetic real rates of return as of December 31, 2018, the measurement date, for each major asset class are summarized in the following table

		Long-Term Expected
Asset Class	TargetAllocation	Real Rate of Return
Global Equity	55.5%	3.41%
Global Fixed Income	18.5%	0.23%
Real Assets	13.5%	0.97%
Diversifying Strategies	12.5%	0.63%

Discount Rate: The discount rate used to measure the total pension liability is 8% for 2018. The projection of cash flows used to determine the discount rate assumes that the employer and employee contributions will be made at the rates agreed upon for employees and the actuarially determined rates for employers. Based on these assumptions, the pension plan's fiduciary net position was projected to be available to pay all projected future benefit payments of current active and inactive employees. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

Pension Expense and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions

For the year ending September 30, 2019, the County recognized pension expense of \$1,315,397. At September 30, 2019, the County reported deferred outflow of resources related to pensions from the following sources:

NOTES TO FINANCIAL STATEMENTS For the Fiscal Year Ended September 30, 2019

NOTE J--EMPLOYEE PENSION PLAN--PRIMARY GOVERNMENT (Continued)

Source	Deferred Outflows of Resources	Deferred Inflows of Resources
Differences in experience	\$ 18,433	\$ 558,750
Differences in experience Differences in assumptions	200,517	\$ 550,750
Excess investment returns	1,231,510	-
Contributions subsequent to the measurement date*	596,350	
Total	\$ 2,046,810	\$ 558,750

^{*}The amount reported as deferred outflow of resources resulting from contributions subsequent to the measurement date will be recognized as a reduction in the Net Pension Liability for the fiscal year ending September 30, 2020.

Amounts reported as deferred outflows of resources related to pensions will be recognized in pension expense as follows:

Years Ending	
September 30	Amount
2019	\$(434,726)
2020	(370,872)
2021	(357,163)
2022	(408,550)

NOTE J--EMPLOYEE PENSION PLAN--TRANSIT

Employee Pension Plan--Transit Corporation

Profit Sharing Plan and Trust 401(k)

The Transit Corporation provides benefits to all union employees through a defined contribution plan named the Clare County Transit Corporation 401(k) Profit Sharing Plan and Trust (Plan). The benefit to which a participant is entitled is the benefit that can be paid from a participant's account. A participant's account consists of amounts contributed to the plan for the participant plus investment earnings. As of September 30, 2019, there were five plan participants. Employees may at their option, defer up to 10% of their gross income, not to exceed amounts established by the Internal Revenue Code. The Transit Corporation matches the employee's contribution at the rate of 1/4 of the employee's contribution, up to a maximum of 2% of the employee's total compensation. During the year ended September 30, 2019, the Transit Corporation contributed \$1,720 and employees contributed \$4,780 to the plan. Plan provisions and contribution requirements are established and may be amended by the Transit Corporation Board.
