PLEDGE OF ALLEGIANCE

“I Pledge allegiance to the Flag of the United States of America, and to the Republic for which it stands. One nation, under God, indivisible, with Liberty and Justice for all.”

PLEDGE OF ALLEGIANCE TO THE MICHIGAN FLAG

“I Pledge allegiance to the Flag of Michigan, and the state for which it stands, two beautiful peninsulas united by a bridge of steel where equal opportunity and justice to all is our ideal.”

RESPECT FOR THE AMERICAN FLAG

The Flag Code, a national guideline on ways in which it is to be respected, state that no disrespect should be shown to the flag of the United States of America. Specific ways, in which the flag should not be used, according to the code, are:

*The flag should not be dipped to any person or thing, and can be flown upside down only as a signal.

*The flag should never be fastened, displayed, used, or stored in such a way that would allow it to be easily torn, soiled, or damaged.

*The flag should never have any mark, insignia, letter, work, or other designs of any kind placed upon it.

*The flag should never be used as a receptacle for receiving, holding, carrying, or delivering anything.

*The flag should never be used for advertising purposes. Advertising signs should not be fastened to a flag’s staff or halyard.

When lowering the flag, make certain that no part of it touches the ground. It should be received by waiting hands and arms. To store the flag, ceremoniously fold it lengthwise in half, then repeat with the blue field on the outside. Finally, while one person holds it by the blue field, another then makes a triangular fold in the opposite end, continuing to fold it in triangles until only the blue shield shows.

When a flag is in such a condition that it is no longer a fitting emblem for display, it should be destroyed in a dignified manner, preferably by burning.

It is proper to display the flag from sunrise to sunset on all days the weather permits. The flag may also be displayed at night if illuminated by a light. But it is even more important to display the flag on national holidays and days of importance.

A BRIEF HISTORY OF CLARE COUNTY

Clare County's eastern townships were organized by Midland County in March 1870 and the western townships by Mecosta County in 1871. Farwell was the host village of our original county seat. Speculators had purchased land in Clare County as early as 1854, but large scale lumbering did not begin until after the Civil War. Homesteaders began arriving just prior to the Flint & Pere Marquette Railroad (1870) and claimed the better agricultural acreages under the Homestead Act of 1862, or by exchanging Military Script for eighty acres or more.

The F&PM railroad came to Clare in 1870 and was extended to Evert in 1871. Now that the means were available, immigrants, woodsmen, homesteaders, and drifters began to populate our county. The lumbermen made the quickest and heaviest impact upon our resources by felling most of our forests. Necessity, being the mother of invention, caused a revolution in the woods when Scott Gerrish needed an efficient method to get tens of thousands of remote logs into the Muskegon River. He built and operated a special logging railroad between landlocked timber tracts near Lake George and Temple, on the Muskegon River. These logs were railed in stupendous quantities to the rollways. This innovative railroad extended the wealth of the county by 300%, but most of this new money went to Saginaw, Muskegon, and Chicago.

Clare County has had its troubles with lawless elements. Some of this conflict was generated by farmers in Grant and Sheridan Townships when lumbermen took local government from their control. The Board of Supervisors retaliated by withholding funds for a new jail at Harrison and the Sheriff was not compensated for transporting lawless men to jails in Midland or Osceola Counties. The County went feral following this interval.

After the timber was gone, our homesteader/farmers took over the pine barrens and began nurturing our soil back to productivity. During the 1930's, large oil fields were discovered and developed with capital supplied by various sorts of businessmen.

Since the Spanish-American war, we have sent our young men to help defeat America's enemies. By the 1990's, Clare County had invested large amounts of fiscal resources into its educational and cultural institutions.

As a County, we entered a new century with eager anticipation. Residents, farmers, light industry and tourists benefit from our vision. Our citizens expect the good life because the infrastructure of our county is good and getting better. Clare County has become one of Michigan's favorite residential districts for we have hunting, fishing, snowmobiling, golfing, and other recreations in our back yards. **The Gateway to the North!**
